## Blood Is Needed Now At The Hospital

In the Everglades Memorial Hospital in Pahokee, there is seldom a day goes by that blood is not administered to one or more patients. Blood is lost in many ways, and in most cases must be replaced. In surgery, blood is often a necessity to insure the patient against the unexpected. After serious accidents the administration of blood often means the difference between life and death.

And where does all this life-saving blood come from? It comes from donors, people who have the same type blood as the patient, and it is usually donated.

According to George Dixon, chief technician at Everglades Memorial Hospital, finding donors with the type blood needed is a never-ending problem in this community. Many of the people typed in years past have moved away; some are still here but have given their limits; and others are not physically able to give blood any more.

The Pahokee Business and Professional Women's Club is undertaking a campaign to bring the "Walking Blood Bank" back up to the standards necessary for the protection of the health of the community. Beginning April 18 and continuing through April 30, the drive will be on to get 1,000 citizens of this area to go to the hospital and have their blood typed. If this many people respond to the call, the Everglades Memorial Hospital will have an adequate supply of typed prospective donors to meet almost any emergency.

The hospital will be ready at any time between the hours of 9 a.m. and 4 p.m. and between 7 p.m. and 9 p.m. to type your blood any day of the week, Monday through Saturday, during these two weeks. You could be the first one to need blood. Then, too, you will be given a card showing your blood type, and in case of severe injury this knowledge available to the doctor immediately could save your life.

It will only take a few minutes, Dixon said, and Cliff Simonds, administrator of Everglades Memorial Hospital, says this program is most urgently needed. "We urge the citizens of the area we serve to cooperate in every way."

Mrs. Carolyn Thompson is chairman of the BPW committee in charge of the campaign, assisted by Miss Jane Plumer, Miss Ellen Morgan, Mrs. Faye McDowell and Mrs. Alys M. Okie.

Pvt. Bobby Parker arrived last Friday to spend a 20-day leave in Canal Point with his aunt and uncle, Mr. and Mrs. Elmer Maxson, following his graduation from Rigger School at Fort Lee, Virginia. Bobby, who had his basic training at Ft. Gordon and air borne training at Ft. Benning, will go to San Francisco and then on to Viet Nam at the end of his visit in Canal Point.

Dr. and Mrs. Edwin DeLeon of Tampa are the guests of her parents, Mr. and Mrs. O. H. Sheppard in Canal Point, during the Easter weekend.

## Cheshire Farms switches to Electric Irrigation Pumps

...Does the job with a third less running time

Cheshire Farms in Deerfield Beach, Florida, recently changed from fuel-driven irrigation pumps to electric.

Says Russell M. Cheshire: "Our experience shows that the electric system is the easiest, most trouble-free, and convenient system we have had the pleasure of using. In addition, we were pleasantly surprised at the economical operation of our pumps."

"Our practice is to flood our 500 acres with water to one foot in depth for two months to control nematodes," declares Mr. Cheshire. "The flooding this year — the first time with electric driven pumps — was done faster and with a third less running time than in previous years."

Electric-powered irrigation is a profit-making, labor-saving production tool. Connect a dependable electric motor to your seepage or irrigation pumps. Easily controlled with a time clock or float switch.

Why should you buy U.S. Savings Bonds when there are so many other good investments?

To help your country is one answer — and a good one.

But Bonds have other advantages that make them worth your consideration.

For instance, they offer you just about the easiest way to save money: either with the Payroll Savings Plan where you just ask your employer to put part of your wages aside toward a Bond or through regular purchase of Bonds at your bank.

Another unique advantage of U.S. Savings Bonds is the way they stick with you. You can get your money any time.

But if you're like most people, you'll hang on to your Savings Bonds for the big things you want in your future.

And, of course, Bonds are a safe investment — as long as there's a United States of America.

Which brings us back to your country again. Bonds help defend freedom at a time when the enemies of freedom are stronger than ever.

Buy Savings Bonds. The banks or savings institutions that sell them don't charge you a penny for the service.

Keep freedom in your future with

# New $3\frac{3}{4}\%$ interest on U.S. Savings Bonds

*The Treasury explains why the new ones you buy and the ones you own now are better than ever*

**Q: How does the new  $3\frac{3}{4}\%$  interest rate benefit me?**

**A:** With Series E Bonds, the rate turns \$18.75 into \$25.00 fourteen months faster than the old rate. Your savings increase faster, because your Bonds mature in just 7 years, 9 months.

With Series H Bonds, the 10-year maturity period stays the same but more interest is paid you each six months. With both E and H Bonds the new rate works out to  $2\frac{1}{4}\%$  for the first year and a half; then a guaranteed  $4\%$  each year to maturity.

**Q: When did the new rate become effective?**

**A:** June 1, 1959.

**Q: Does the new rate change the Bonds I bought before June 1, 1959?**

**A:** All older E and H Bonds pay more now—an extra  $\frac{1}{4}\%$  from now on, when held to maturity. The increase takes effect in the first full interest period after June 1.

**Q: Will the Bonds I own automatically earn their new rate?**

**A:** Yes. You don't need to do a thing—just hold on to your Bonds.

**Q: When my E Bonds mature, will they keep on earning interest?**

**A:** Yes. An automatic 10-year extension privilege went into effect along with the new interest rate. This means your E Bonds will automatically keep earning interest after maturity.

**Q: With the new interest rate, should I cash in my old Bonds and buy new ones?**

**A:** No. The automatic  $\frac{1}{4}\%$  increase makes it unnecessary—and in almost every case it is to your advantage to retain your present Bonds.

**Q: How are series H Bonds different from series E Bonds?**

**A:** The chief difference is this: You buy H Bonds at full face value and the interest is paid by Treasury

check every six months for the life of the Bond. You buy E Bonds at 75% of face value and the interest accumulates to maturity. H Bonds provide income for living expenses, while E Bonds build a nest egg for the future. That's why many retired people hold H Bonds and families saving for, say, a child's education, buy E Bonds.

**Q: In what denominations can I buy series E and series H Bonds?**

**A:** E Bonds: \$25 (cost \$18.75), \$50 (cost \$37.50), \$100 (cost \$75.00), \$200 (cost \$150.00), \$500 (cost \$375.00), \$1,000 (cost \$750.00), \$10,000 (cost \$7,500.00).

H Bonds: \$500, \$1,000, \$5,000 and \$10,000. They are priced at face value.

**Q: How safe are U.S. Savings Bonds?**

**A:** Savings Bonds are an absolutely riskless way to save. The United States Government guarantees the cash value of your Bonds will not drop, that it can only grow.

**Q: What if my Bonds should be lost, stolen or destroyed?**

**A:** You can't lose. Every Bond purchased is recorded by the Treasury. If anything happens to your Bonds they are replaced—free.

**Q: Where can I buy Bonds?**

**A:** Buy E Bonds at any bank—it takes only a few minutes. Buy them automatically through the Payroll Savings Plan where you work. This Plan means you can have any amount you name automatically deducted every payday. The Bonds you buy by installments are delivered to you automatically, too. Your bank will take your order for H Bonds.

**Q: How do I help strengthen America's peace power when I buy U.S. Savings Bonds?**

**A:** Peace costs money—money for military strength and for science. And money saved by individuals helps keep our economy sound.

## 8,800 Phone Books Are Distributed

A measure of the growth of the Belle Glade and Pahokee area and surrounding communities is the increase in the number of telephone directories being distributed this week to local subscribers.

Delivery is being made by mail and should be completed by April 12, the effective date of the new directory.

Approximately 8,800 new books are being mailed to homes and businesses, according to Charles Leonard, local manager for Southern Bell Telephone Company, compared with 8,000 when the last directory came out a year ago.

The new telephone directory has many new and changed listings and other helpful telephone information. Enough new directories have been printed to supply every telephone subscriber and to allow for future telephone expansion.

Old directories should be discarded and the new one used after April 12 when looking up telephone numbers. Looking up numbers helps to avoid the possibility of getting wrong numbers and saves time for both the calling and called parties. "Information" should be called only when the number you are seeking is not listed in the new directory.

## Jim Maynor Seeks Law Making Job

Jim Maynor, Dean of Boys at Palm Beach High School and a Democratic candidate for the Senate, whose seat was abolished by reapportionment, has qualified as a candidate for the House of Representatives, Group 4.

In his announcement Maynor stated: "After considerable thought I have decided to file for the House of Representatives. I am too concerned with the needs of average people to sit idly by. Having worked with boys and girls and their parents, I know what the parents want and the children need, and the problems of each." Maynor also stated that he had done considerable research in the areas of roads, conservation, mental health and equalization of taxes.

Maynor, a former resident of the Glades, said he had received considerable urging to run for the Glades seat. He declined to do so since this is traditionally held for a Glades resident. He added, however, "I am sure the people of Belle Glade and Pahokee know that I will do my best to represent them no matter what seat I run for. I have friends from Lake Harbor to Sand Cut."

Maynor, a resident of Lake Clarke Shores, made a strong bid to unseat Republican Representative Don Reed in the 1964 election.

With our need for long range planning and foresight for the economic growth and betterment of our community, I solicit your vote and support in the forthcoming election on May 3rd.

## How to speak out for freedom today

Free men have never gone in much for silence. Even before the first thirteen States became United States, men were speaking for freedom loud and clear.

Today Americans speak out for freedom many ways—in Congress, in local government, in neighborhood activities. Some speak out for freedom in other languages, in other lands. And millions of Americans speak out for freedom every time they buy U.S. Savings Bonds.

Every Savings Bond you buy is an investment in freedom. While you're saving money for your

own family's future, you're helping Uncle Sam tend to the business of keeping men free today.

Perhaps you don't speak out for freedom in the same tone of voice when you buy a Bond as Patrick Henry did in his famous speech. But you speak every bit as surely. And every bit as proudly.

Why not speak out for freedom now? Buy Bonds at the bank or on the Payroll Savings Plan where you work.

Keep freedom in your future with
